Hazardous Weather

Hazardous Weather

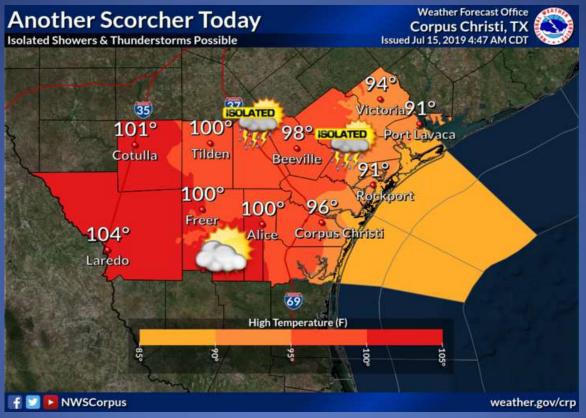

Sligh chance of storms today, but still will be a hot day across the Panhandles, and the first of many consecutive days over 100 degrees in the Palo Duro Canyon area.

Persistent and prolonged rainfall from rain bands meandering slowly around the region will result in a continued flood threat. Upwards of 10 inches of rain has already fallen where rain bands have remained stalled overnight, and several more inches will be possible where the rain bands continue to set up

Hazardous Weather

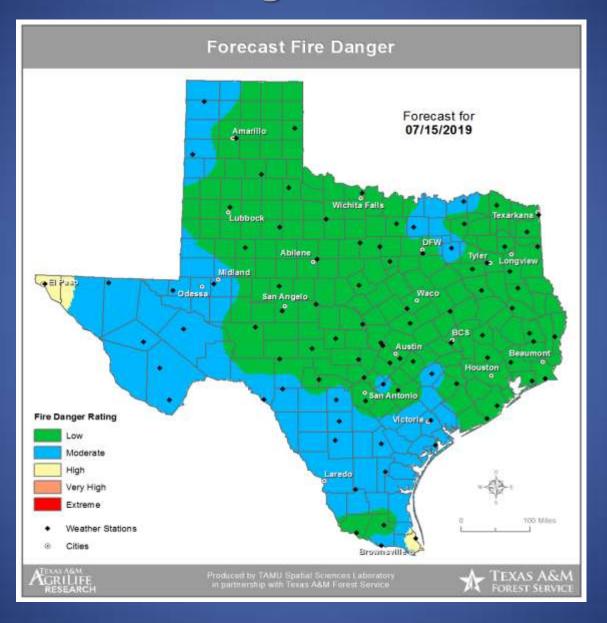

Another hot day is expected across South Texas with heat indices between 105-110 degrees. Isolated showers & thunderstorms will be possible this afternoon across the northern portions of South Texas.
